

***Reputable Community Healthcare Clinic seeks Data Analyst
Join an organization which is respected and well loved by the Community we serve!***

This is a great opportunity to share your work with an organization that cares for the community of Healdsburg, Windsor, Geyserville, and beyond.

At Alliance Medical Center (AMC), we believe everyone deserves the highest quality care. We provide primary medical and dental care within a broad array of services - including prenatal, a teen center, all ages dental care, mental health, nutrition health services - that help our patients' live healthier lives.

Our mission is to improve the health and wellness of our diverse communities. We provide accessible, caring, and high quality healthcare services. We are a recognized Federally Qualified Healthcare Center (FQHC) leader in improving the health of our communities. We are proud to serve a diverse population of approximately 13,000 predominantly Spanish speaking patients.

AMC's Healdsburg and Windsor Medical locations are both recognized PCMH (Patient Centered Medical Home) sites and we are proud to be eligible to recruit National Health Service Corps Scholars, Physicians, and Registered Nurses with student loan repayment needs with Highest HPSA Primary Care score 18!

What you will do at AMC:

Under the direction of the QA/QI Manager, the Data Analyst will assist AMC in continuous quality improvement by empowering and enabling teams to do population management and enhance individual care to patients. The Data Analyst also fosters a culture of quality through collaborations with AMC departments.

The Data Analyst at Alliance Medical Center has the following qualifications and skills:

- Bachelor's degree in public health, computer science, or related fields; or one to two years' related experience and/or training; or equivalent combination of education and experience.
- Demonstrated skill in interpreting and presenting data
- Technical expertise in health information systems/EPIC preferred
- Ability to work with little direction, maintaining confidentiality and professionalism
- Willingness and ability to learn database systems, internet-based data collection and analysis tools, MS office.
- Excellent interpersonal and communications skills
- Problem solver who can work in group problem solving situations, and strategic thinker
- Initiative when looking for ways to improve and promote quality; monitors own work to ensure quality
- Adaptability – Adapts to changes in the work environment; manages competing demands

How to apply:
